LICA Statement of support for House Joint Resolutions 71 & 72

The Land Improvement Contractors of America (LICA) issued this Statement of Support for House Joint Resolutions 71 & 72 on Tuesday, November 3, 2015. These are resolutions of disapproval under the Congressional Review Act (CRA) that would block the Environmental Protection Agency (EPA) from implementing its greenhouse gas rules for new and existing power plants. If these rules are not overturned, people across the country will be hurt by much higher monthly electric bills, and many jobs will be destroyed in energy-intensive manufacturing industries.

EPA overregulation is one of the main obstacles to returning the American economy to robust, long-term growth. LICA urges the House to pass House Joint Resolutions 71 & 72 before the end of November.
